OFFICE OF COMMUNICATIONS' NOTICE NO. 86-62

5 November 1962

SUBJECT: Establishment of Cost Center for Actions Directed
by NSAM-201

1. The Office of Communications, by implementation of the actions directed by the Subcommittee on Communications of the Executive Committee of the NSC, will incur costs that are in addition to those anticipated and programmed within the present FY-1963 budget limits. A cost center has been established for the purpose of identifying and accumulating these additional costs. Attached is a list of the world wide cost centers to be charged for those costs that are directly associated with the additional expenses resulting from fulfillment of the directives from the Subcommittee.

2. It must be understood that the establishment of this cost center does not increase, at this time, the funds available to the Agency. Therefore, the actual use of funds will have to be from regular Agency sources.

3. This notice is not being sent to the field but any actions involving field expenditures should cite the cost symbol of the area involved and the field instructed to furnish a report of the costs to Headquarters for inclusion in the total.
